Secretary Mellon Denies Interest in Corporations Under Fire

Washington, D. C. — Replying to testimony before the Couzens senate committee in reference to settlement of the Atlantic Gulf and West Indies steamship corporation taxes, Secretary Mellon in a formal statement Monday declared that the treasury in settling with the steamship company had made application "of proper business principles familiar to every one."

The secretary denied inferences that he was interested personally in the steamship corporation. He said he had no interest either in the corporation or any of its subsidiary companies and was not acquainted with any of its officers.

Washington—Evidence designed to show that the federal government has lost millions of dollars in taxes through war amortization allowances to the United States Steel Corporation, the Aluminum Company of America and hundreds of other companies is contained in official transcripts of hearings filed with the senate by the Couzens investigating committee.

Counsel and engineers for the committee contended that an amortization allowance of \$65,063,312 to the United States Steel corporation was \$27,926,614 in excess of what it should have been and that there was involved a difference of tax of \$23,478,513. This case has not been closed however.

An overallowance of at least \$6,500,000 to the Aluminum company of America on the Amortization total of \$15,589,614 was alleged by counsel and the engineers.

PERSONAL VIEWS

A loss of some \$50,000,000 in taxes from the various copper companies also was alleged because of the failure of the treasury department to extend to the years 1917 and 1918 a system of revaluation ordered recently by Secretary Mellon.

L. C. Manson, counsel for the committee said with reference to the steel corporation case that there was no uniformity of treatment in the determination of amortization.

"It depends very largely," he said, "on the personal view of the engineer who happens to make the investigation."

Complaint also was made by Mr. Manson that amortization allowances were made without sufficient investigation.

Reference was made in the testimony to Secretary Mellon's connection with this company, members of the committee saying that it had been their understanding that the cases of companies with which he was called had been settled before he took office. Mr. Manson said that was not the case.

WILL CHECK CANCER BEFORE MANY YEARS, MAYO TELLS FORUM

Philadelphia, Pa. — Dr. Charles H. Mayo of Rochester, Minn., one of the country's leading surgeons, told the Philadelphia Forum in address Sunday night that he believed cancer would be "under control" within a few years.

By this Dr. Mayo said, he did not mean that cancer would be cured nor that it would be preventable, but that it would be more amenable to treatment and that its working would neither be so rapid nor so serious. He based this belief, he said, on the theory that cancer is caused by an organism, perhaps by a germ, and on the Wasserman test through which it is claimed the presence of a cancer may be detected.

POLICE MAKE CLEANUP OF GUN TOTERS AND FIGHTERS

By Associated Press

Niles, O.—Six men are under arrest here today and three more are held in Warren City jail on charges of fighting, carrying concealed weapons and suspicion as result of two clashes at street corners here late last night.

Report that the fighting was between Ku Klux Klansmen and anti-Klansmen were denied by Police Chief L. J. Round.

Round said only three shots were fired. Deputy Sheriff Finney who happened to be passing the scene of the fighting fired three shots into the air to disperse a crowd that gathered while police were taking several prisoners to jail after the first outbreak.

JOHN W. THOMAS, FORMER STATE SENATOR, IS DEAD

By Associated Press

Chippewa Falls — John W. Thomas, former state senator and a prominent figure in circles throughout the state, died here Sunday at the age of 79. He was a Civil war veteran and had held various state offices.

Mr. Thomas was elected assemblyman for Chippewa county and served four succeeding terms. In 1902 he was elected state railroad commissioner and was reelected in 1904. He was elected state senator in 1908, serving four years.

His widow and one daughter, Mrs. Fred Hartzell of Anson, Wis., survive.

HUGHES MAKES OBSCURE EXIT, WORK UNSUNG

Leaves Washington Almost Unnoticed Amid Bustle of Inauguration Ceremonies

NOT SINGLED FOR HONORS

Steered Two Administrations Through Turbulent Post-War Period

BY DAVID LAWRENCE

Copyright 1925 by Post Pub. Co.

Washington, D. C. — Charles Evans Hughes has left public life almost as inconspicuously as any official of recent years—singled out neither by President Coolidge nor congress for honors in recognition of service done.

It is true the under secretaries, bureau chiefs and cabinet colleagues together with the entire diplomatic corps went to the station to say goodbye, but there stands no testimonial from the government except the generalities of the letters exchanged at the time of his resignation more than a month ago.

In the hurry and bustle of the inauguration the departure of one of the most prominent figures in American public life went unsung and, one might say unremembered. Many men received the distinguished service cross for work done at their desks in Washington during the war. Charles Evans Hughes has been concentrated for four years on one of the most complicated tasks that ever faced a secretary of state.

GUIDED PRESIDENTS

Were it not for the enigmata of Mr. Hughes, the "Isolationists" in the senate would never have been brought into line in the making of a treaty of peace with Germany. And were it not for Mr. Hughes the United States would not now be co-operating with the league of nations nor two presidents so definitely committed to the adherence of the United States to the world court protocol.

The retiring secretary has not satisfied all classes but he has steered what seemed to two presidents the best foreign policy, possible under the peculiar circumstances existing in the United States senate.

So far as the press and the outside world is concerned, it can be said without much dissent from any quarter that Charles Evans Hughes was frank with the newspapermen and told them in his almost daily conferences more facts about the foreign policy of the American government than they ever secured through any other channel before Mr. Hughes had done more faculty that was rare. His explanations were lucid. The newspapermen listened often to an argument that might have been directed to the supreme court or a world tribunal. And occasionally they heard more so pleased that they did the unprecedented thing—they broke out into applause.

WAS EXPLICIT

Mr. Hughes' ideas were that in arguing before the group of newspapermen he was really arguing with the American people. He never consciously misled a correspondent. He frequently perceived by their questions that they might inadvertently misrepresent a situation unless he elucidated.

Mr. Hughes' policies have been at times the subject of severe criticism but there never has been any doubt what they were. He guided two presidents. He worked day and night at his job. He was to the minds of most people in Washington a great secretary of state.

Yet he goes back to the practice of law without anything being said from the highest places in the government and with no badge of honor except the satisfaction in himself of conscientious service for the public welfare.

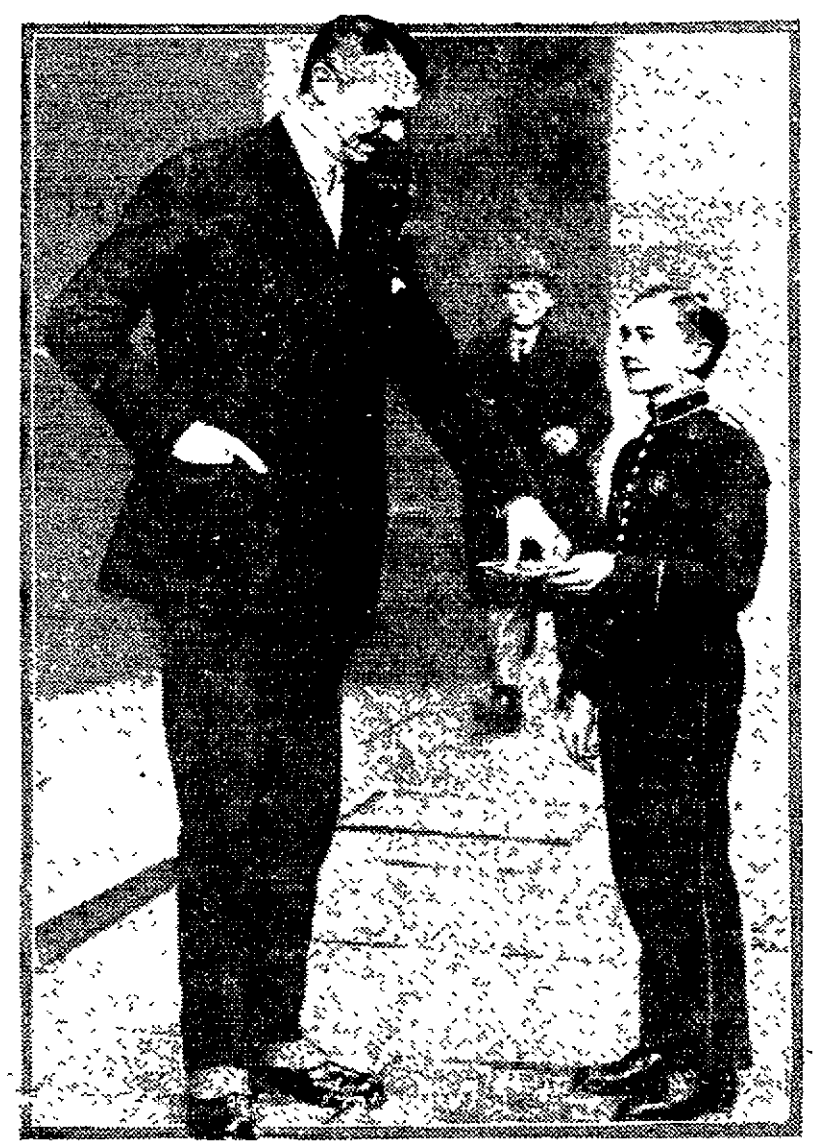

BOUNDARY COMMITTEE GETS INVESTIGATION RESULTS

By Associated Press

Madison—Results of investigations to determine the main channel of the Menominee River were scheduled to be presented at the opening here Monday afternoon of the Michigan Wisconsin boundary dispute hearing.

M. P. Sawyer of Menominee, Mich., was ready to appear before Mrs. M. Hoyt, special commissioner, and tell of trips along the river in search of the main channel. Witnesses in behalf of Wisconsin then will be called. Robert M. Nelson, special counsel for Wisconsin said.

TALLEST PRESIDENT

Geneva Protocol Is Opposed By Britain

By Associated Press

Geneva—Austen Chamberlain, the British foreign secretary as president of the council, opened the twenty-third session to the council of the League of Nations Monday and so great was the throng in the corridors of the league palace that he had literally to edge his way into the council chamber.

Diplomats, governmental agents and newspaper men have come to Geneva from all corners of Europe attracted by the large number of important questions on the council's program especially the problem of the Geneva security protocol, which Great Britain is expected to declare unsuited to British ideas. The British seem however, to resent advancement of the idea that they are killing the protocol.

RED CROSS WILL BUILD 2 HOSPITALS IN JAPAN

By Associated Press

Washington—The memorial hospital to be constructed in Tokio from the unused portion of earthquake relief fund of the American Red Cross will be of reinforced concrete and will be of reinforced concrete and will not exceed three stories. These features are designed to make the building as nearly earthquake proof as possible.

Reports to Red Cross headquarters in Washington reveal that the Japanese will build a ranch hospital in Yokohama. Work on the building will begin next spring.

The Japanese will spend \$1,500,000 of the unused relief fund for the two buildings, reserving the remaining \$1,500,000 as an endowment.

FORMER LAWRENCE MAN GIVES TALK OVER RADIO

W. F. Padner, professor of English at Lombard College, Galesburg, Ill., and son Harvey Padner 1100 N. Vine st., will speak over the radio from station WRAM, the Lombard college according to a letter received by his father. Mr. Padner is well known in this city. He is a graduate of Lawrence college and while in the local school won a reputation as a public speaker. He represented Lawrence in the state oratorical contest one year and captured second place. Station WRAM broadcasts on wave length of 244 meters.

FIGHT TO GIVE BACK OLD JOBS TO SENATE REBS

Senator Norris Moves to Restore Ladd to Place Taken by Stanfield

WARREN STILL UNDER FIRE

Possible That Hitch in Reorganization May Lengthen Special Session

Washington—A move to restore the LaFollette insurgents to their old committee rank was made Monday in the senate by Senator Norris, Republican, Nebraska.

He offered a formal motion to substitute the name of Senator Ladd of North Dakota, one of the insurgents for that of Senator Stanfield of Oregon as chairman of the public lands committee.

With partial organization of the new body and three hours' discussion of the nomination of Charles B. Warren to be attorney general the net accomplishment of last week's sessions both these matters continued Monday as the pending business of the senate.

One or two days more of debate on the Warren nomination, taken up in open session Saturday also was expected before a vote on confirmation.

The hitch in the reorganization program emphasized today the probability that the special session will continue much longer than when expected than when it was convened last Wednesday, should Republican leaders adhere to their present plans.

These calls for taking up both the issue of Pines and Louisiana localities with the certainty of much more debate on the first of these. As to the Louisiana pact also Senator Robinson of Arkansas, the Democratic leader has given notice that this will require very thorough consideration.

COOLIDGE ORDERS VOTE IN SOUTH AMERICAN ROW

Washington—A plebiscite to determine the question of sovereignty over Tacna Arica was ordered in an award handed down Monday by President Coolidge in the controversy over the territory between Chile and Peru.

The award was handed the Peruvian and Chilean ambassadors at the White House Monday by the President.

Conditions of the plebiscite will be in accordance with some of the contentions of each of the nations party to it. The decision would provide a fair election to represent the wishes of the people.

COPPER COMPANY RESUMES PAYMENT OF DIVIDENDS

New York — Directors of the Butte Superior Mining Co. Monday resumed dividends, authorizing a payment of 50 cents on the \$10, par value shares. Dividends were omitted in September 1923.

Last year's earnings totalled \$209,600 of which \$192,000 was accumulated in the last quarter. The present metal prices continue further dividend will be made to stockholders. It is stated.

GRAVE SEALS SECRET OF MYSTERY MAN; WAS RUSSIAN PEER, MAYBE

St. James, Beaver Island, Mich.—Beaver Island's man of mystery is dead. When he is buried Tuesday he will take with him to the grave the secret of his identity which he has preserved for the 50 years he has lived here. His age is unknown.

The man known only as "Dr. Protar" was believed to have been a Russian nobleman in exile. Up to the time of the World war he received remittances from Russia, which ceased about 1918 and were not resumed.

"Dr. Protar" apparently destroyed all possible papers of identification. He possessed an extensive library including many books of travel.

Allege "Secret Dealings" Occurred Between Sinclair and Secretary Fall

CAN'T FIND OIL MAGNATE

Marshals Making Nationwide Search Say Stewart Has Been Missing for Weeks

By Associated Press

Cheyenne Wyo.—An attempt to win back Teapot Dome to the government was the task Alcee Pomerene and Owen D. Roberts special counsel for the United States faced when they went into federal court Monday at the opening of the government's lease annulment suit against the Mammoth Oil company a Harry F. Sinclair concern.

Mr. Pomerene opened the case for the government with a review of the transactions which led up to the granting of the lease, stressed the alleged illegality of the presidential order which transferred the oil reserve from the navy department to the department of the interior and what the government charges were "secret dealings" between Mr. Sinclair and Albert B. Fall former secretary of the interior.

DID NOT ADVERTISE

Mr. Pomerene declared the government would seek revocation of the lease on two grounds. First, that it was without any authority of law because it was let to the Mammoth without competitive bidding and without having been advertised. He charged secondly that the least advertisement was "entered into a result of conspiracy on the part of Sinclair and the secretary of the interior."

This alleged conspiracy, Mr. Pomerene said, was against the interests of the government. He charged that through fraud and secrecy the details were kept from the public and government officials.

Edward C. Finney, assistant secretary of the interior, was called as the first government witness when Pomerene concluded his statements and after the defense announced that its opening remarks would be reserved until the government had rested its case.

EXPECT NO DELAY

The inability of United States Marshals to locate Robert W. Stewart, chairman of the board of directors of the Standard Oil Co. of Indiana, who is sought as a government witness would not cause any delay in the trial, according to Mr. Roberts, who said that he was conducting through a personal agent a countrywide search for the missing oil man.

Process servers in the United States marshals' office at Chicago reported that he had been absent from his home for several weeks.

The government agents also reported that they had been informed "that Mr. Stewart had not been in his office for several weeks and it was not known when he would return."

Other witnesses sought by the government unsuccessfully are H. M. Blackmer and J. E. O'Neil oil men now in Europe and H. S. Osler of Canada.

For the Mammoth Oil Company and Mr. Sinclair a brilliant array of legal talent headed by Martin W. Lattin was prepared to resist the charges of fraud and secrecy brought by the government in connection with the granting of the lease to the Mammoth company.

The trial before Judge T. Blake Kennedy probably will cover a period of at least three weeks.

MRS. SHANNON'S CAR HELD ALL NIGHT BY JOYRIDERS

Joyriders caused the police a search Sunday night for a Nash sedan owned by Mrs. S. C. Shannon 711 E. Johnson. The car was abandoned by the culprit and was found Monday morning at the corner of E. College and N. Green Bay st.

Mrs. Shannon left her automobile parked in front of 102 E. Franklin st. Sunday evening and discovered about 8:30 that it had been stolen. The police were notified but were unable to locate the car until Monday morning.

REICHSTAG FIXES DATE FOR GERMAN ELECTION

FORMER PARTNER OF WARREN DEAD

Elliott Stephenson, Detroit Railroad Head, Dies in California

By Associated Press

Detroit, Mich.—Elliott G. Stephenson, president of the Detroit United Railroads and one of Michigan's best known attorneys died early Sunday at Coronado Beach, Calif. Telegrams to business associates here stated.

In addition to many noted cases in Michigan (Mr. Stephenson was attorney for the Bridge Brothers in their legal controversy with Henry Ford and also for a Chicago paper when Henry Ford sued it for \$1,000,000. He also was an attorney for General Motors.

Mr. Stephenson moved to Detroit in 1887 to take over the legal work of Don M. Dickinson when Mr. Dickinson was appointed postmaster general by Cleveland taking a place as junior partner in the Dickinson firm.

In 1902 Mr. Stephenson headed a law firm in which Charles R. Warren, present attorney general designate, was once a member.

CLEANING—OUT AND UP

When the housewives do their spring cleaning, even with the most modern weapons for this crusade it can take less than a week. During this period the occupants of the house find home life no chaise-longue of gardenias.

But recently Mr. Louis Wagner, 300 South Cherry street, accomplished a winter clean-up that required only a day. He had a quantity of household goods, pictures, heavy pictures, kitchen cabinet etc. he wanted to sell so he advertised them in the classified section of the Post-Crescent.

By this ad there was accomplished a clean up of the goods and a clean up for Mr. Wagner—all in the space of twenty-four hours and without raising dust or disturbance.

Mr. Wagner told us he had at least thirty calls immediately after the paper came off the press.

When YOU want to make a clean up don't wait for spring. Just call 543 and ask for an advertiser.

2,000 PERSONS AT THREE DEDICATORY CHURCH SERVICES

Impressive Programs Are Given
in New Trinity Lutheran
Church

Nearly 2,000 persons attended the dedication ceremonies at the three services held Sunday in New Trinity Lutheran church, 1 S. Allen and E. Kimball-st.

Favorable weather enabled a large number of residents from New London, Neenah and Oshkosh to drive in and take part in the services. The dedication exercises also attracted many visitors from other Appleton churches. It is estimated that the afternoon assembly numbered more than 700 persons. The morning service 400 and the evening service nearly the same number. Voluntary chairs were placed in all the aisles, as the pews were unable to seat all the people. Many of the members retired to the subauditorium in order to permit strangers to witness the ceremonies.

PRAISE CHURCH
Expressions of admiration were heard often after each service. Many evinced surprise over the capacity of the auditorium and the architectural beauty of the church.

The morning worship was the dedication service proper, and in the afternoon service the pipe organ was dedicated. The Rev. F. L. Schreckenberg, pastor of the church, conducted the dedication ceremonies.

The Rev. W. C. Miller, St. Matthew church, Chicago, and former pastor of the church that the Rev. Mr. Schreckenberg attended as a boy, preached the dedicatory sermon in the morning. Dr. M. L. Stipewalt, occupying the chair of practical theology at Chicago Lutheran seminary, preached in the afternoon in place of Dr. E. J. Krauss of the same institution, who was detained by illness.

The Rev. E. J. Stecker, Fond du Lac field missionary to northern Wisconsin, who while attending Lawrence college served Trinity church in its infancy, preached in the evening. Dr. G. W. Gensser, Holy Communion church, Racine, president of the Wisconsin conference, represented Dr. G. K. Keller, president of the English Synod of the Northwest, at the services.

NEENAH CHOIR SINGS
Other visiting parts included the Rev. W. C. Draper, St. John church, Oshkosh; the Rev. J. Richard Olson, Holy Trinity church, New London; the Rev. A. J. Sommer, St. Paul church, Neenah.

The vested choir of the Neenah church led the singing in the afternoon service. The choir of Trinity church also appeared for the first time in vestments and sang at the morning and evening services. Mrs. A. R. Eads presided at the new organ. Miss Harriet Melnich rendered several violin selections, and vocal solos and duets were sung by Miss Anita Weber, Miss Edith Eckman, the Rev. Mr. Olson and Miss Viroqua Vockrodt, the latter of Oshkosh.

Dinner and supper were served in the subauditorium. Post-dedicatory services will be held this week on Tuesday, Saturday night, and Thursday. Community night, with the Rev. J. F. Fedders, Lake Park church, Milwaukee, preaching at the former service, and the Rev. Paul R. Siebert, Reformation church, Milwaukee, speaking at the Thursday evening service.

Fellowship Of Prayer

Daily Lenten Bible reading prepared for Federal Council of Churches of Christ in America.

The Spring of Life
Read Lk. 8:29-49. Text: 6:45. For out of the abundance of the heart his mouth speaketh.

MEDITATION—In the mind of Christ life is very much like a stream flowing from a hidden spring. The spring is the soul. The stream consists in the words and deeds of daily living. That which determines the quality of life is the nature of the soul. Thus as God given and God renewed whenever the human heart is open to divine influences. Every man must take care that the springs of his life are pure and that no selfish interests divert or defile the streams of influence that flow into the life of the world.

"It is only the true disciple, whose inmost being has been touched by the Spirit, that can hope for service in this high kind of life. The human heart can maintain unfailing goodwill only when it is in vital connection with the great central heart which pulses out goodwill eternally."

PRAYER—Eternal Father, create within us clean hearts. Search out the dark places and illuminate them with the gracious Spirit. May the life of Christ draw us with its alluring power that we may know the healing of his presence. Amen.

CITY WILL STUDY ECONOMY PLAN IN STREET PAVING

Surfacing Without Concrete
Base Will Be Inspected in
Larger Cities

An economy idea in street paving will be studied by a group of city officials which expects to visit Chicago and St. Louis on an inspection trip, starting perhaps Tuesday of next week, according to arrangements which now are being made by Mayor John Goodland, Jr.

Mayor Goodland has been interested in the plan used in a number of places which utilizes the hard bottom already existing in streets and applying only the top coating of bitulithic or asphalt. He is anxious to investigate this system and also the success of other types of surfacing before the common council lets the bids for Appleton's big 1925 project.

Streets that already have a macadam surface and a hard stone bottom may be treated in this money-saving manner, the mayor finds. It is unnecessary to tear up the solid foundation and put in one of concrete. It is a difficult task and somewhat expensive to rip out a hard base and cities are overcoming this by scraping the top of the roadway carefully, grading it and then applying a layer of asphalt or bitulithic. Such a pavement will last as long as one built with a concrete base, it is said, and is more suitable for traffic as there is a resiliency not afforded by the rigid concrete. Only a few Appleton streets can be built this way, including State-st, part of Johnson and a few others.

Milwaukee, Chicago, was paved in this way with bitulithic over macadam and has stood almost the heaviest traffic in the world for years without showing much wear and with no need of repairs. Streets in St. Louis have been constructed in that way in several places. These cities have had pavements for so many years that it is possible to determine the wearing qualities of various kinds of surfacing readily.

Mayor Goodland has not decided who will make the inspection trip, as he must find aldermen who can leave their tasks long enough to go. He expects to be unable to go himself because of the voluminous work at the city hall. Paving plans are being completed so the contractors

EXPECT REID BODY TUESDAY EVENING

Members of fraternal and civic organizations are expecting to attend memorial services for the late Thomas B. Reid in Lawrence Memorial chapel on Thursday morning. Appleton Elks and the Rotary club already have agreed to attend as organizations and it is expected Kiwanias and Lions club will do the same. The memorial services will be held at 11 o'clock Thursday morning.

The body of Mr. Reid, accompanied by his daughter, Miss Estella Reid, and Mr. and Mrs. M. A. Wertheimer, Kaukauna, is expected to arrive in Chicago from Phoenix, Ariz., on Tuesday morning. It will arrive in Appleton shortly after 8 o'clock Tuesday night. Private funeral services will be held at the Reid home on N. Green Bay-st on Thursday morning, just prior to the public memorial.

can figure on the work, the equipment contracts are to be let for the junior high schools and bids also are to be received for a motor sweeper. The inspection trip was authorized by the council at a meeting in February and the mayor was instructed to appoint the committee.

POSTAL EMPLOYEES CELEBRATE RAISE

Stamps Selling for 1½ Cents
Will Be Placed on Sale
Here Soon

Because of the changes in postal rates following passage of the postal pay and rate bill by congress, there will be 1½ cent stamps on sale as soon as they can be printed by the government printing office. The new denomination is to pay cover postage on circulars and printed matter, the charges for which will be 1½ cents for two ounces.

Changes consequent upon the passage of the law were discussed at a meeting of the Postoffice association here Saturday evening, attended by more than 40 members. To celebrate the glad tidings of the increase, a quartet conducted by Prof. A. J. Theiss rendered several selections at the meeting. The quartet is composed of John Peterson, Charles Feuerstein,

Killian Tillman and Joseph Roemer. The new rates have not yet been published by the post office department at Washington but are expected at the local postoffice in the near future.

Appleton carriers will derive their first benefit from the pay increase on Mar. 15, when they will receive in addition to their regular salaries sums ranging from \$60 to \$65 in back pay from Jan. 1.

500 CHILDREN OF GRADE SCHOOLS IN MUSICAL PROGRAM

Second Annual Musical Demonstration Will Take Place in Chapel

Five hundred children from the Lincoln, Columbus, Franklin, Fourth District, and St. Marys school will give a demonstration of vocal, instrumental, and operetta work at the Lawrence Memorial chapel on Thursday and Friday evenings, March 12 and 13.

On Thursday evening a girls chorus of one hundred girls from the Lincoln, Columbus, and Franklin schools will render the operetta, "The Swallowtail." This will be followed by a boy chorus of two hundred voices, singing a unique program of American folk songs. Following this, a group of fifty students from the public school music department of the conservatory of music will give the operetta "Jack and the Beanstalk" which portrays the old story of the giant who has the hen that laid the golden eggs, the Giantess, the Fairy Jack, and the Beanstalk. Dr. E. L. Baker will give a brief lecture on the girl and boy voice as the work proceeds.

On Friday night, March 13, children from the first five grades of the Lincoln, Franklin, Columbus, and Fourth district schools will give a demonstration of public school music as taught in these grades. The public will have the opportunity of seeing how the work is done, how voices are conserved, children taught to read music and to appreciate music, and how rhythm and individual work is manipulated.

There will be a short discussion of what is done for the non-musical child and methods and results in part singing will be demonstrated. Following this demonstration, the operetta "Jack and the Beanstalk" will be given for the second time.

Parents and friends who saw a similar demonstration last year will have an opportunity to note the progress made this year. The program will start promptly at 7:30 on both nights.

Girls who sing in "The Swallowtail": Evelyn Alvord, Georgina Baum, Gertrude Beckman, Aronell Bellie, Helena Belzer, Miriam Benyas, Augusta Bethke, Helen Block, Isabel Bouvat, Marcella Buessing, Janette Cameron, Jean Carnes, Evelyn Charbonneau, Viola Christen, Dorothy Cookson, Lucille Delbour, Ida Dwyer, Lena Earle, Beatrice Ernst, Margaret Felzer, Helen Fomal, Edna Gauslin, Eleanor Gebheim, Esther Grimmer, Lorraine Grimmer, Margaret Grube, Gertrude Hanke, Virginia Hatch, Margaret Henkel, Arline Hermann, Marie Hertzmillier, Ruth Hoffman, Esther Horn, Wilma Horn, Evelyn Ingenthron, Evelyn Jacobs, Lucille Joram, Mildred Karweick, Beulah Kirsch, Verona Klippstein, Myrtle Klockzien, Lucille Krabbe, Dorothy Krueger, Evelyn Krueger, Gladys Krueger, Mildred Krueger, Rosella Krueger, Viola Krueger, Dorothy Kunitz, Lorraine Kuchenbocker, Annette Kuetner, Helen Kunitz, Cynthia Luebke, Ruth Lyman, Helen Meizer, Esther Merkle, Betty Meyer, Hilda Niefert, Thelma Nohr, Virginia Oaks, Jean Owen, Doris Parker, Grace Parrish, Beulah Pasch, Evelyn Pasch, Eleanor Pettigrew, Estelle Pietsch, Ruth Pietsch, Ruth Pietsch, Violet Pinner, Olga Preutz, Trydolan Rabe, Leona Radtke, Virginia Rammer, Ruby Reed, Dorothy Reichfeldt, Dorothy Rogers, Dorothy O. Chop Suey Has Little Appeal For Orientals

According to Tien Chen Liu, Chinese student at Lawrence, the story that America is now teaching China the wonders of the incense burning is untrue. China has used incense for many years, he declares, burning it on New Years Day and special holidays.

"But America is the inventor of the chop suey," he said. "Before I came to America I never heard of the chop suey. I don't know where the name originated. I never eat it—don't like the taste. It is never eaten in China."

Mr. Liu does not like American tea, so often labeled "Chinese Tea." "Tea over here does not taste good. Often I go into a restaurant and ask for their best 'Chinese tea.' But I cannot drink it." Rice is also another dish which Americans cannot prepare as can the Chinese, Mr. Liu believes.

There are five Chinese students at Lawrence: T. C. Liu, Shantung; Tien Chen Liu, Tientsin; Tien Tsai Tsai, Szechwan; Wing To Hoh, Canton; and Yin Cham Yee, Hongkong. All are seniors.

NURSE EXAMINES 190 PUPIL IN ELEVEN RURAL SCHOOLS

Pupils of 11 Outagamie county rural schools were examined during the last month for the condition of their health, according to the report of Miss Marie Klein, county nurse. The number of children examined in the schools visited was 190, of which 106 were without any defects of some sort. Miss Klein gave three health talks at which 50 parents were present.

More than 10 per cent or 27 children were found to be underweight. Other ailments are listed as follows: defective teeth, 57; defective tonsils, 37; defective vision, 9; defective bones, 3; enlarged spleen, 18.

Beside the 11 schools inspected, Miss Klein made 62 home calls.

4 DIVORCES, NO WEDDING LICENSES IN THREE DAYS

Outagamie county will soon be in a state of single blessedness if events continue as in the last few days, records of the county officers show. These records indicate that four divorces have been granted in the last three days and no marriage licenses have been issued during that period.

RESERVATION HEAD SAYS INDIANS ARE TREATED FAIRLY

Can't See Anything Wrong in Allotment Bill Which Indians Oppose

E. A. Allen, superintendent of the Keshena Indian reservation, Keshena, believes that bill H. R. 6589, which recently passed the house of representatives, providing for allotment of the Menominee Indian reservations of Wisconsin, is not one fraught with danger to the lands of these Indians, according to a Milwaukee newspaper. Under the provisions of the bill, each member of the tribe is to receive in trust 80 acres of land for a home and \$500, with which to make improvements—the allotments to be held in trust for a period of 25 years. Members of the American Indian Defense association had declared themselves against the bill on grounds that under a previous law the secretary of the interior had authority to issue patents-in-fee simple, or deeds, before the expiration of the trust period to Indians who had been allotted.

HELD IN TRUST 25 YEARS

Mr. Allen's statement says: "The allotments are to be held in trust for a period of 25 years at the expiration of which time the secretary of the interior may grant patents-in-fee, or, in his discretion, extend the trust period as the interest of the allottees dictates. During the trust period, the allottees can neither sell nor encumber his land, nor is it subject to taxation. It remains under the supervision of the government until a patent-in-fee is issued. However, should the allottee die within the trust period, his allotment descends to his heirs in accordance with the laws of descent and distribution of the state of Wisconsin, while under present conditions all property rights revert to the tribe."

URGE VACCINATION AS SMALLPOX STARTS IN PART OF COUNTY

An epidemic of smallpox which has started in the northern part of the county has caused Miss Marie Klein, county nurse, to urge that all children in the county school be vaccinated as soon as possible. Many of the children have been vaccinated, but some still are not taken care of. Vaccination is the only way to prevent an epidemic, Miss Klein said.

CITY HASTENING TO THAW SEWERS

When Old Sol learned down brightly on the city Friday he made the city street department hasten to steam up its old boiler which had been hibernating for a year at the old fair grounds. It was found by R. M. Connelly, city engineer, that almost every catch basin in town was frozen up and had to be thawed out.

A crew will work continuously now with the boiler until all sewers are opened by the application of steam. The absence of snow caused the water to freeze as it trickled into the openings and the result was standing water on many streets. The worst inconvenience is suffered on outlying streets where there are no sidewalks and the roads are unimproved.

Mr. Connelly's telephone has been ringing frequently with complaints about the standing water but he assures the people that all will be taken care of as fast as time will permit.

TOO MANY HOLDING OUT ON DOG TAXES

City Is About to Dog Footsteps of Those Who Harbor Unlicensed Dogs

There are about 150 persons who will be dogged by the cops if they don't get the better of their dogged determination to hold onto the dollar or two they are supposed to pay for a dog license.

The total of licenses paid for 1925 had reached 566 Saturday, F. E. Bachman, city treasurer, announced. The number of dogs usually is about 700, meaning that quite many owners are delinquent. All licenses should have been paid before this but this matter could not be given attention during the taxpaying rush.

Policemen are about to make a house-to-house canvass, however, to seek out the untaxed dogs. Owners are subject to arrest if they harbor a

CHICAGO WATER PERMIT

Secretary of War Weeks has issued a permit to the city of Chicago to take 8,500 cubic feet of water per second for sewage dilution for five years, on condition that it immediately commence the construction of a sewage treatment plant that will take care of its refuse matter and will meter the water consumed by its population. It is provided that the city must in five years complete 100 per cent its sewage reduction system capable of taking care of a population of at least 1,200,000, and that the sanitary district shall pay its share of the cost of compensating works to restore lake levels, depositing bond or certified check in the amount of \$1,000,000 as evidence of good faith. All of the work must be under the supervision and approval of United States engineers. The permit is comprehensive and appears to contemplate all questions that might arise regarding interpretation of operations by the city of Chicago.

It is to be noted that Chicago expects the war department to extend the permit in case the improvements required are not completed in the five year period specified. This is a matter in which interests outside of Chicago will have to take their chances. The city of Chicago may or may not meet the conditions of the permit in good faith. It may reason that it can take its time and that no secretary of war would revoke a permit of this character in jeopardy of its health. It is up to the war department to see that it is not taken advantage of in this manner.

Undoubtedly Chicago can complete a sewage disposal plant in five years if it seriously undertakes to do so. In the end it will be benefited by this health measure, and so will a large population of Illinois whose health is now menaced by the emptying of sewage into the drainage canal. It is further significant that no sooner is Chicago notified of its permit than it commences to talk of the necessity of diverting 10,000 cubic feet of water for a lakes-to-the-gulf waterway and also for power. Propaganda for both these purposes will be judiciously and actively employed during the next five years to secure in a roundabout way what cannot be obtained directly. The lake and national interests should be on guard against this move. They should have but a single aim and that is to hold Chicago absolutely to the terms of the war department's permit and to see that at the end of five years its diversion of water is reduced to the amount authorized, 4,167 cubic feet per second.

BEST TREE TO PLANT

Do you know what shade tree is best for planting in a particular location, how to choose it, how that tree planting time is at hand, and how to take care of it?

The American Tree association of Washington will for a innocent stamp send you tree planting suggestions and a tree day program. Organizations throughout the country will join the tree planting army during Forest Protection Week, April 27.

Properly answered these questions point the way to shade tree satisfaction. Improperly answered or ignored, they leave the tree's future to chance, which is another way of spelling almost certain failure.

To furnish the correct answers to all questions which may arise is the special mission of "Trees as Good Citizens," by Charles Lathrop Peck, president of the American Tree association, Washington,

D. C. In his discussion of the shade tree, from which the tree-planting bulletin is taken, Mr. Peck has not only gone to the root and branch of his subject, but into the heart of it as well. He deals with shade trees as one who loves them. The human qualities and relationships of the tree is the vital spirit of the entire book.

Along with accuracy, he has made his book entertaining. For evidence of his subtle touch the reader need go no further than the opening sentence, with its declaration that "man owes it to himself to give the shade tree its place in the sun." In this well-turned phrase the author strikes his keynote as to style of writing. A place in the sun is the shade tree's birthright, and the book was written with the earnest purpose of spreading this important truth.

One of the first registrations of the year was the membership of the Men's Club of Philadelphia. The members of the Atlanta Women's club opened tree planting in the South by placing peach trees in front of the clubhouse on Peachtree street.

In Mississippi the women are conducting a tree-planting contest between the various clubs. Natchez was the first to send in nominations to the American Tree association. At Jacksonville, Fla., the women's clubs, with the Rotary and Civilian clubs, put on a big tree-planting program.

At Youngstown, Ohio, this spring the women's clubs will continue the tree planting on a Road of Remembrance that has been started there. Women's clubs throughout the United States will put on big programs during National Garden Week and Forest Protection Week, which comes April 27.

Veterans of Foreign Wars and the American Legion have plans under way to get a big registration in the tree-planting army. Is there not something we can do locally along this line?

MITCHELL TO GO

The president's decision not to continue General Mitchell as assistant chief of the army air service is well taken. General Mitchell's views may be correct and his criticisms may be just, but the probabilities are against him. Some officers have come to his support, but the weight of authority in both the army and navy department is opposed to his views, which appear to be rather extreme.

However, it is not a question of difference of opinion that incapacitates General Mitchell for continuance in his position, but rather an act of insubordination. Either he or his superior should go, and unquestionably it should be General Mitchell. That is the only way to have discipline and organization in the department of war.

So long as the president has confidence in his secretary of war he must stand by his recommendations and his judgment respecting the personnel and policy of the department. Questions relating to aircraft will be just as well decided with General Mitchell removed as with him continued in his present place.

HOUSEHUNTING.

THERE is always ample reason, when you enter moving season, for a run of nervousness, and for aching feet. In short, house-hunting, take you round while you are seeking for a home, but goodness knows what you will get.

Miles and miles you go a walking, to a landlady's arm talking, and you visit homes of every brand and sort. Many things turn up to stop you, rentals high will often stop you, and you find that seeking homes is far from sport.

After while you find a dandy, to the cars and across your hands, and your spirits rise to highest pitch, and then all station's quickly denied when you find the place is rented. And you start out hunting homes all over again.

Though the real estate men say, hunting homes just makes you nervous, also weary, when you travel near and far. Though you know it is before you, that you once again be moving, in the end you are glad to start right where you are.

BLAMING THE OPERATION.

About two years ago, writes a correspondent, I had an operation on my right ear for mastoiditis and it has left that ear deaf.

This is typical of hundreds of similar inaccurate ideas which laymen seem unduly fond of.

How often we see that person who in the news of the day has somebody or other has succumbed from an operation. The reporter who assures us that important people have a knack of reverting back to something or other is the original author of this joke, and most newspaper editors consider it a very good joke and admit it to the news columns whenever it comes along.

If a man is mangled by machinery and rushed off to the hospital where, as the news says, he vainly to save the man's life, not even the star reporter would tell the world the man died from an operation. If a victim is asphyxiated or otherwise poisoned, and the doctors resort to surgical measures in a vain attempt to resuscitate, we would question the mental competency of any one who might try to tell us the victim succumbed from the effects of the surgery. But somehow it is all right with the newspapers to include in this sordid bit of humor about the surgical effort in behalf of any one who happens to be worsted in a battle with disease.

Our friend who declares that the operation for mastoiditis left him deaf in that ear perhaps believes all he reads in the newspapers. He should meet a few newspaper folks. He should know that nearly all of our fiction writers get their training as newspaper writers. He must resign himself to the truth, which is that mastoiditis usually impairs the hearing even if no operation is done. Of course it is conceivable that an operation for mastoiditis might really produce deafness. I imagine it would if I attempted to do the operation, for instance, and probably it would leave the patient blind in one eye too. But as a general rule if a mastoid operation has any effect on the hearing at all it is to improve the hearing which has been impaired by the disease.

This popular habit of trying to blame the operation for all the damage done by disease is akin to the cruel propagation of another wicked lie, namely, that any damage done to the heart or the nervous system by the poison of diphtheria is to be blamed on the antitoxin—if any antitoxin has been administered. The frequency of paralysis from diphtheria was some twenty times greater before the discovery of antitoxin than it is today, but the wretches who propagate this cruel lie seldom have to explain such discrepancies to their ignorant, credulous or superstitious followers.

Once in a while a surgeon's scissors slips, or he mislays a sponge, or the nurse mistakes the carbolic for the peroxide, or the lights go out, or the attendant brings the wrong patient, or prepares the wrong eye—but these contingencies are so remote that a fellow need not worry about them for a second as he rolls along to the operating room. And every one of us who has enjoyed the blessing of modern surgery has more or less adhesions around the place where the surgeons did their stuff, but we should be thankful for the adhesions, for they are nature's welding material, and 95% of 'em are from the inflammation or disease, only 5% attributable to the operation.

QUESTIONS AND ANSWERS.

Save the Wrappers.

Some doctors advocate the wallowing of the skins of such fruit as apples, peaches, plums and grapes to obtain the mineral salts which lie close under the skins. Should you approve of this? (W. L. L.)

Answer—Yes, for most persons. But when the fruit comes through the market, better wash it carefully first.

Bacillus Acidophilus.

Can you explain the meaning of Bacillus acidophilus in a few words or would it require a long article? (D. A.)

Answer—That is the name of a kind of harmless bacterium, cultures of which are commonly administered instead of Bulgarian cultures, to favor an acid fermentation in the intestine and discourage putrefactive germs there.

LOOKING BACKWARD

TWENTYFIVE YEARS AGO.

Monday, March 12, 1900.

The little daughter of Mr. and Mrs. D. J. Boyle was christened at St. Mary church yesterday. Miss Cora Zonne was to entertain a company of friends the following evening in honor of Miss Ida Roemer, who was to leave soon for Chicago.

Mrs. N. M. Edwards, one of the oldest members in point of time of the Congregational church, died unexpectedly last night.

The home of W. J. Taughn, Prospect-st., was damaged by fire to the amount of about \$500 at midnight Saturday. The flames were noticed by Matt Schmidt. The fire gained considerable headway because the hydrant near the residence was out of order and the fire department experienced some delay.

Those who were to take part in the declamatory contest between Third ward high school and Neenah high school on March 30 were Bessie Kuehnstedt, Willard Van Heuklen and Mabel Erling. Wisconsin Telephone Co. reported a net gain of 338 subscribers for February in this state making the Wisconsin total 15,511. The Erie Telephone system had 113,327 subscribers.

D. F. Hammel issued a denial that he was a candidate for aldermanic honors in his ward.

Clarence Shepard gave a dinner party that evening at the Sherman house for Oshkosh and Neenah friends, to meet Miss Genevieve Clark Wilson. Miss Ada Sprackling was engaged by Lawrence university as teacher of elocution.

TEN YEARS AGO.

Monday, March 8, 1915.

The early participation of Greece in the World War on the side of the allies was regarded as a certainty according to reports issued from Athens.

Extreme pressure was being brought in Washington to induce President Wilson to send American armies to Mexico to protect the U. S. British and German interests there. Both the president and William J. Bryan, secretary of state, took the stand that this country had no right to intervene.

Capt. Robert Wescott of Madison, formerly of Appleton, was to make the annual inspection of Co. G at the armory that evening. One hundred members were taken into the Methodist church at the morning session yesterday. Elmer Abrahamson, Lawrence college football star, was the speaker at the evening session.

Willard S. Ford of Sparta, and Albert Franke of Appleton, were members of the Lawrence college debating team which was to debate with Albion college, March 12.

Judge John Goodland announced this morning that he would withdraw from the race for reelection. His impaired hearing was given as the reason.

Henry Arcus, 755 Center-st., died yesterday afternoon at the age of 64.

BEAUTY

The prettiest girl in the state they said. In the beauty contest she stood at the head.

First of the hundred who entered in. The medal and purse of gold to win.

Her hair was dyed, and her nose was pug. And powder and rouge besmeared her mien.

A thousand others naturally sweet. Who were never seen at a "contest meet."

Would have kicked the judges into a cocked hat. If them they'd had a chance to look at.

ATTORNEY GENERAL IS WRONG, SMITH SAYS

Editor Post-Crescent: The appearance of an article in last evening's Post-Crescent, bearing upon your school situation, and setting forth the substance of an opinion of the Attorney General; and the general importance of the issues involved, in my judgment, justified my precipitous injection of a contrary conclusion to that of the Attorney General, into the controversy, especially in view of the fact that the law on the question is apparently so clear and the announced opinion so evidently wrong.

The situation, upon which the opinion is based, does not prevail in the city of Appleton, neither is the Supreme Court decision relied upon as supporting the conclusions reached in controlling for the reason that the issues there decided are in no manner similar.

Reference is made to the decision of the Court in State ex rel, Baxter vs. Carlson, reported in 199 Northwestern, page 70. That was an action to test the validity of the election of a school commissioner, which election is governed by the general law in relation to the election of city officers whereas the election of a school superintendent is governed by the school laws. They have no bearing on each other.

In the case of the city of Appleton, your school districts were created and the Board of Education originally governed by the Special Charter. That law, so far as it related to the election of a city superintendent, was repealed by Chapter 360 of the Laws of 1905, amended by Chapter 388 of the Laws of 1905, Chapter 86, of the Laws of 1909 and is now in our Statutes as Section 40.655 which law governs the term of office and manner of selection of a city superintendent of schools, not only in Appleton but in every city in the state excepting Milwaukee.

The issues involved were fully discussed and determined by the Supreme Court in the case of Sieb vs. Racine, as reported in 176 Wis. on page 617, which decision controls in your election case.

I therefore maintain that the election of your city superintendent was not only legal, but that his term of office is three years and that the Board of Education has absolute control of all of the schools in the city of Appleton with full power to perform in the manner and at the time they assumed to act.

I trust that this opinion may be given such publicity as to arouse an interest which will ultimately lead to a correct conclusion in your school matters.

Yours most sincerely,

E. C. SMITH.

(Editor's Note—When the citation mentioned by Mr. Smith in his communication was given to Alfred C. Bosser, city attorney, he said he had read the case and came to the conclusion that it did not apply here. In the case of Sieb vs. Racine the question at issue was whether the election was for a period of three years. That question was not involved here and consequently, Mr. Bosser said, he could not see where that particular case set a legal precedent for the Appleton situation.)

TWO FLOORS OF GOOD THINGS TO WEAR

Adventures In The Library

By ARNOLD MULDER

GETTING AT THE HEART OF OLDER TIMES

Recently I had a curious "library adventure" that came almost by chance but that I recommend to anyone who is looking for a new kick out of his reading. Having occasion to look up something in regard to Carlyle to whose work I have been giving some study, I turned to a bound volume of Blackwood's magazine of the year 1850. And what I found there about Carlyle was decidedly worth reading.

Carlyle by this time is an English classic. I don't know how others regard him but ever since I was a boy I have yielded him reverence. Away back in school I got the impression that he was one of the great of the earth. Not only that but I got the impression that he trod the earth in his own day like a literary colossus before whom the people of his generation mentally bowed down.

ASSAILED CARLYLE

But the Blackwood magazine article showed that the great Carlyle was subjected to the same sort of criticism and abuse that the writers of today who have attracted the world's attention must endure. Evidently the anonymous author of the Blackwood article did not agree with Carlyle in politics and he sets out to hand the author of "Heroes and Hero Worship," "Sartor Resartus" and "The French Revolution," a few that would make his hair curl.

In the estimation of the Blackwood article Carlyle is not only a fool in politics but he does not know how to use the English language. He is illiterate and has no idea of grammar. He can't write a clear English sentence and when he wants to say something he says it in the worst possible way. He writes one thing and means another, and nine times out of ten he does not know himself what he means. He is deliberate and viciously perverse about most things and in

all other things he is unintentionally wrong. In short he is the greatest bundle of error of his generation and a menace to the political, mental and moral well being of his generation.

That is not an exaggerated report of the abuse that was heaped upon the head of the great Carlyle. Of course we of today, after the lapse of 75 years, know that the anonymous critic of Carlyle was absolutely wrong. We know that Carlyle had many faults but that his virtues far outweighed them and we also know that there was a manliness about him that, in spite of his crabbiness, merits our admiration.

IT WAS EYE-OPENER

But such an article is an eye-opener and it gets the reader close to the heart of a past generation. It helps him to see Carlyle as he appeared to a large section of the people of his own generation, not as he appears to us today when his faults have been forgotten to a great extent and his merits remain.

In politics the fact is well known that frequently a man who is damned vigorously when he is alive is canonized after he is dead. Lincoln is the classic example of this. Today the person who wants to get at the heart of the contemporary opinion of Lincoln must go back to the files of the newspapers and magazines of his time and read what is said about him there. And in the same way the person who wants to get at the heart of the contemporary opinion about the great writers of the past must go back to the newspapers and magazines of their own day. There he can read what was thought of those writers before the world had come to the conclusion that they were classics. There you get criticism in the raw and frequently it is extremely raw.

Almost unconsciously most of us assume that the great writers of the past were held in the same reverence in which we hold them today. Often the fact is that those we regard as great were considered only small potatoes in their own day while others that we have never heard of were the literary dictators of the times. To get the contemporary point of view on any writer is an adventure of the first order.

The Question Box

(Any reader can get the answer to any question by writing The Appleton Post-Crescent Information Bureau, Frederick J. Friskin, Director, Washington, D. C. This offer applies strictly to information. The Bureau cannot give advice on legal, medical, and financial matters. It does not attempt to settle domestic troubles, nor to undertake exhaustive research on any subject. Give your question plainly and briefly. Give full name and address and enclose two cents in stamps for return postage. All replies are sent direct to the inquirer.)

Q. Is there such a rank as a lance corporal? J. S. C.

A. A lance corporal is a provisional appointment without the pay of permanent rank. When vacancies occur as corporals, the man who is considered for the appointment to such a vacancy, is made a lance corporal with duties of a corporal, but not the pay of a corporal. If he qualifies and makes good at this provisional appointment he is made a regular corporal and his rank is confirmed with the pay of a corporal.

Q. How was the sale of the Friar Lands arranged? F. S. D.

A. In 1800 Mr. Taft and other gentlemen forming a commission of which Major Archie Butt was one went to Rome as unofficial ambassadors for President Roosevelt in an effort to settle the matter of the "Friar Lands" question. He arranged a bulk of the Philippine Government to purchase the same for \$7,000,000 which amount the Friar Lands bond of the Philippine Islands were issued. The lands were gradually being sold to the Government upon very easy terms, and installments to the tenants.

Q. How much must a man invest of his receive in order to have an electric cancelling machine? C. S. G.

A. If a post office cancels 5,000 pieces of mail a day, it may apply for an electric cancelling machine.

Discuss Ways To Cooperate With Officials

The first monthly luncheon of the Civics department of Appleton Women's club was held Saturday in the clubhouse, and was well attended by a group of women representative of the city. The department has arranged for a series of monthly luncheons and meetings when women of the city may gather to discuss local problems.

Mrs. T. E. Orblison presided in the absence of the president, Mrs. D. O. Kinsman. The luncheon was served by a committee consisting of Mrs. S. C. Shannon, Mrs. L. C. Sleeper and Mrs. John Goodland, Jr.

The first subject discussed, which was led by Mrs. James Wood, was ways by which the woman may cooperate with city officials in making and keeping Appleton at its best.

Mrs. E. Louise Ellis led the discussion on the need of a humane association in Appleton. The decision was that it is not necessary, for instant cooperation may be gained from the police department when need arises, and if further authority is needed the matter may be reported to the state agent. Mrs. Ellis urged that people keep bird baths and pans of water for dogs in the rear of their homes.

A report of the conference on international relations at Milwaukee, held under the direction of the State League of Women Voters, was given by Mrs. L. C. Sleeper, who attended in behalf of the club.

Miss Lucy Helen Pearson, general director of the club, closed the meeting with a talk on the purpose of the civic group, saying that it should do the research work of the club by sympathetic investigation rather than attack and attempt at reform.

Two Clubs Join To Sponsor Talk By Spanish Girl

Spanish regional costumes will be described in a lecture at 8:15 Monday night in Lawrence Conservatory of Music by Senora Isabel O. dePalencia, who is brought here by the Spanish club of Lawrence college and the local chapter of American Association of University Women. Why March Is Most Dangerous

March is the most dangerous month of the year because the change of season is more than a good many systems can stand. Too often it is true that the sick "last only till spring." But if the system is fortified, if the impurities are driven from the blood, and the nerve tissues fed with wholesome and strength-giving pure food medicine, there is no danger in the change of seasons.

FATHER JOHN'S MEDICINE

is invaluable as a tonic in the spring. It strengthens the system and drives out the poisonous waste matter—builds up the body. It is this power that has made it so successful in treating colds and throat troubles. No weakening stimulants, morphine or other dangerous drugs.

OVER 69 YEARS OF SUCCESS

Tuesday is Children's Day at GEENEN'S

It's the day when Betty, Marie and Sue love to come up to Geenen's to see all the pretty things for little girls to wear. It's the day, too, when Johnny, Bill and Sam like to wander about looking at sturdy, stannch, boy things and fascinating boy toys.

This Tuesday, boys and girl, there's a glorious spring opening just for you. You will be here of course—and don't forget to bring mother with you.

Little Girls' Coats of Softest Wool

What fun Marie and Sue will have choosing new Spring Coats! Perhaps Marie will favor a pastel green rep with smart tuckings. \$5.75. Rose-checked Sue will look adorable in a beige twill with embroidered collar. \$8.50.

Underthings All Snowy White

First to put on in the morning simple muslin Chemises, Panties and snowy white Slips. For every day Mother chooses them plain and sturdy. For wear with party frocks they're daintily ruffled and lacy, 39c to \$2.75.

Here's Daintiness For Parties and Such!

Oh, but don't Betty and Sue love to dress up when Marie has a party! Betty's crepe de Chine Frocks flaunt a gayly printed patterns in vivid coral, \$7.50.

A Flower-like Blue

—to match her pretty eyes, is the flimsy handkerchief linen Frock Sue wears. Dainty drawn-work renders it distinctive, \$8.

Betty Wears Polo

Swagger, jaunty Polo in the new gendarme blue—we young fashionables must be just as smart as our elders—with shiny blue buttons for "swank", is Betty's choice, \$5.75.

Rose Straws for Curly Locks

A snug fit and a rolling brim—that's Curlylock's idea of a Hat! And when it's of a lovely rose hue—with entrancing diamond shaped appliques of leather, well, it's perfect, that's all, \$2.50.

A Jaunty Suit for Young Fellow—My Lad

As yellow as the canary that sings all the day, is this manly little Suit of chambray. For contrast, it takes to itself brown linen collar, cuffs and belt, \$3.

Gingham Dresses Of "Grown-up" Smartness

It may be a cunning apron effect, a surplice closing with one large rever, or perhaps a piquant scarf arrangement—just subtle details which give these gingham Frocks their smartness, \$2.

In Gay Tulip Tints Is Sue's Wee Frock

KAUKAUNA SQUADS SPLIT EVEN WITH APPLETON QUINTS

Twenty-fives Beat Hi-Y Squad and Badgers Lose to Triangles

Kaukauna—Two local basketball teams split honors with Appleton Saturday evening in the auditorium exhibition given for the benefit of the junior class fund. The twenty-fives won 12 to 11 from the Hi-Y team of Appleton, one of the strongest squads they have met this season. The Kaukauna Badgers lost a 20 to 8 decision to the Sophomore Triangles of Appleton in the main event of the program.

During the last quarter of the final fracas William Woelz, Kaukauna forward, was knocked out when he was struck back of the head by a player's knee. Woelz was unable to resume play when he regained consciousness. Rather than allow the locals to substitute a player who had played with the Maroons, Appleton agreed to finish the game with four men.

The first game was a tight exhibition. The twenty-fives were in fine form and held the lead all through the game. Next Tuesday evening the squad will meet the Triangles, the team which beat the Badgers in the main tilt. Appleton's lineup in the first game was Babcock, left forward; Solinger, right forward; Packard, center; N. Babcock, right guard; Bohan, left guard. Kaukauna's team included Winge and Welsh, forwards; Smith, center; Kern and Licht, guards.

The Badger lineup included Schmalz and Siebers, guards; Pesson, center; Woelz and Zastrow, forwards.

STUDENT HOLDS SERVICES IN STOCKBRIDGE MISSION

Kaukauna—Roland Bach, student in Reformed Mission house near Plymouth, was a weekend visitor in this city, a guest at the home of the Rev. E. J. Worthman. WAUPACA-GO WILL USE OIL TO SMOOTH RURAL HIGHWAYS

Commission Will Open Bids Soon—Fans in Favor of Baseball League This Year

Special to Post-Crescent
Waupaca—The county highway commission met Thursday afternoon to consider the purchase of oil for road use this summer. Sealed bids were accepted. Representatives of many oil companies have placed their bids which will be opened in a few days and contracts awarded.

No steps have been taken towards organization of a baseball team for next season. An attempt has been made to organize a league by the towns in the county. Marion, New London and Clintonville have already come out in favor of a league of six or more teams. Waupaca has been asked to join the proposed league and will probably take some action in the near future. If this step is not taken, very likely the city will play independent ball this year as was done last season. Under the management of Fred Bushey several good games were played at Athletic park but not enough games to create much local interest were not scheduled at home. The fans say they want baseball and would like to see more local men in the lineup with only one or two salaried players to balance the play.

KIMBERLY PUPILS ARE MILK TESTERS

Photography, Papermaking and Other Subjects Studied by Visual Method

(Special to Post-Crescent)
Kimberly—The science classes of the state graded school at Kimberly have been testing the milk of herds of several farmers near Kimberly. The class is studying the testing of milk and in a week or so photography will be studied. The milk of herds of F. Heideeman, A. De Windt and E. Windrow, route 7, Appleton were among those tested.

The class will study photography from its inception to the finished product. A thorough study of paper making will be the next project. The different stages of papermaking will be lectured on by Principal F. E. Jilson, following the steps taken from the forest to the finished product. The procedure followed will be that of verifying the different steps through study by the class and visits to paper concerns. The high school does not lack supplementary material in any of the branches as it is able to secure much helpful reading from Appleton public library.

"It has been my policy to use both visual and auditory methods in getting information before the children," says F. E. Jilson, principal. "This means that projects are brought out in relief on the sand tables in the lower grades. This conforms with the modern conception that pupils get the idea from hearing, seeing and reading. Closer cooperation with the parents will better the result for the child eventually."

Achievement tests were given to the pupils of the sixth grade for the purpose of comparing the sixth grades of the county. The object was to retard the student if his ability warranted before reaching the eighth grade, eliminating the disappointment concurrent with the possibility of not being able to pass the diploma examination.

The public school basketball team defeated St. Joseph school Tuesday, March 3 by a score of 17 to 9 in Kimberly clubhouse. Pocan starred with seven baskets. Another game will be played Tuesday afternoon, March 10, at Kimberly.

A meeting of the Womens Catholic Order of Foresters, Holy Name court No. 1067, was held Monday evening, March 2, in Kimberly clubhouse. The following officers were elected: Mrs. Clara La Berge, chief ranger; Mrs. Minnie Vanderweiden, vice chief ranger; Miss Cora Bos, financial secretary; Miss Geraldine Sarra-sin; recording secretary; Miss Sophie Franz, treasurer; Mrs. Katharine Menner, first trustee; Mrs. Nellie Stuyvenberg, second trustee; Mrs. Gertrude Vanderweiden, third trustee; Mrs. Kathryn Stuyvenberg, pianist; Miss Marie De Wildt, senior conductor; Miss Martha De Wildt, junior conductor; Mrs. Jennie Turner, son-tine; Miss Kathryn Stuyvenberg, outside sentinel; Mrs. Clara La Berge was elected delegate to the state convention at Madison in June and Miss Cora Bos alternate. After the meeting a social hour was held.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olive-colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. The pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel. Let Dr. Edwards' Olive Tablets take its place.

Headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "loggy" and "heavy." They "clear" clouded brain and "perk up" the spirits. 15c and 30c.

John Gilbert and Aileen Pringle in THE WIFE OF THE CENTAUR.
MONDAY, TUESDAY AND WEDNESDAY AT THE ELITE.

STAGE And SCREEN

"WIFE OF THE CENTAUR"
STORY OF LOVE AND PASSION CONFLICT
The eternal conflict between love and passion is the theme of King Vidor's latest Metro-Goldwyn-Mayer picture, which opens tonight at the Elite theatre for an engagement of 3 days.

"Wife of the Centaur" was written by Cyril Hume upon the theory that every man is half idealist and half sensualist, and that one half, or the other, conquers over the other Hume in his sensational novel, depicted the struggle between these emotions in his character of Jeffrey Dwyer. King Vidor has translated this story to the screen with the utmost

STAGE And SCREEN

loyalty, and won hearty congratulations from the author for the manner in which his work was filmed. In the romantic role of Jeffrey Dwyer, the "centaur," of the story, John Gilbert is reported to have done some of the finest work in his screen career. The character of Jeffrey is likened to the fabled centaur, as being "half man and half beast"—a poet and a sensualist at the same time.

In the leading feminine roles, equally important to the story, are Eleanor Boardman and Aileen Pringle. The former is cast as an innocent girl with whom Dwyer's idealistic half is in love and Miss Pringle portrays a sophisticated, voluptuous woman who stirs the poet's more material instinct.

The large supporting cast includes William Haines, Philo McCullough, Louise G. Mason, Betty Francis, Kate Lester, Kate Price, Lincoln Steadman and others.

Vidor filmed Hume's novel from an adaptation by Douglas Doty, as a special production on the Metro-Goldwyn-Mayer program for the year.

EDWARD DILLON'S MASTER PHOTOPLAY
"When Men Marry" at the New Bijou Tuesday and Wednesday is clean, sharp, depicting a long way from the usual "eternal triangle" and sex stuff which usually predominates in stories of this sort. The story upon which the picture was built is one which requires no stretch of the imagination to make the happenings believable.

The cast is an excellent one headed by E. K. Lincoln, and associated with him are a number of thespians more than favorably known on stage and screen. Among these are Florence Dixon, a remarkably comely young woman who takes the leading female

part and gives a good portrayal of a difficult part. Others in the cast are Charles H. Hunt, Julia Swayne, Gordon, Hedda Hopper, Margaret Sidden, Maude Turner Gordon and Richard Carlyle.

The story is built around the adventures and misadventures of the daughter of a cool and butler who has been adopted by a childless man of wealth and raised in the belief that she is his daughter. The supposed father later marries a scheming, vulgar and dies, leaving a will giving his entire fortune to her. Later a second will is produced just in time to save the girl from a penniless adventurer who seeks to marry her for her supposed wealth.

The second will also circumvents the scheming villain and reverts to the adopted daughter, who marries the real hero and everything ends happily for all concerned except the schemer and the adventurer.

STYLE SHOW TONIGHT
The J. C. Penney Co. and Maikow Millinery will stage a style show at the Appleton Theatre tonight and tomorrow night in conjunction with the regular movie program given by the theatre. Special lighting effects will be furnished by the Lantz-Meyer Co. Music will be furnished by the 8 piece Mellorimba orchestra.

OUR GLORIA GONE NOT BY A LONG SHOT
SEE "MANHANDLED"

If you are one of the millions who have loaned an ear recently to the mysteriously recurrent rumors of Gloria Swanson's demise, we say, yes, bewitch you to take a trip down to the Appleton theatre this week and see "Manhandled" Gloria's latest production for Paramount. And if after that you still think Gloria's a dead one, then we say that she never was alive.

But we admit ourselves that it is a different Gloria Swanson you see on the screen at the Appleton theatre. That is, different as far as picture characterizations are concerned. She's the liveliest person you ever saw in your life in this Allan Dwan production, an adaptation from Arthur Stringer's Saturday Evening Post story by that name.

Here's a picture with a climax as sensational as its title—a story of a salesgirl in a big New York department store who is out for a good time willing to receive everything but give nothing in return.

SAGE TEA TURNS GRAY HAIR DARK

It's Grandmother's Recipe to Bring Back Color and Lustre to Hair

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhance its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair. Everybody uses "Wyeth's Sage and Sulphur Compound" now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous. adv.

Human Wall Flowers

SURELY you've noticed them! At dances they occupy chairs along the wall. At the theater they are conspicuous by their failure to wear well cared for clothes. And notice how seldom the Male Wall Flower—the fellow who neglects the press in his trousers or the spots on his coat, appears with the same girl. When a girl attracts attention to herself she wants it to be favorable. And it works the same with men. Why do these Human Wall Flowers allow themselves to be miserable so unnecessarily.

ly. "Unnecessarily" — because it's so easy and inexpensive to have their clothes perfectly cleaned and pressed here. There are no "wall flowers" among our regular customers. You can single them out in any gathering by their confident assurance which comes from the knowledge of being well dressed. Now is the time to have your Spring and Easter clothes refreshed. LAWRENCE TRACK MEN IN SAME MEET WITH NURMI

College Relay Team Meets Old Rivals In Milwaukee Races

Ripon, Marquette and Notre Dame Compete With Blues in 1 7/8 Mile Medley Relay at Cream City

Lawrence college distance runners will compete with Marquette, Ripon and Notre Dame Monday night in a 1 7/8 mile medley relay in the same meet in which Paavo Nurmi, famous Finnish superman, will take part in two exhibition races. The meet which includes special events for college, university and high school runners and a number of events for women, will take place in the Milwaukee Auditorium.

The Lawrence athletes who are entered in the medley event are Starr, Rehbein, Hyde and Consuegra. Starr, Hyde and Consuegra are of the country and distance stars of the Blue, while Rehbein, captain of the track team has been one of the best half-mile in the Midwest and Little Five for the last two years. Starr and Hyde are sprinters, the former running in the 100 and 220 yard events for the Blue for two seasons, Hyde, a freshman, was one of the sensations of the Appleton high school track team, which won the Lawrence meet in 1924.

On posed to this crew will be four of Marquette's fleetest stars picked from Shimek, the Kenosha sensation Webster, Heppnerman, Ruehl, Shotola and Donohue.

Paavo Nurmi will face two of the country's greatest stars in special mile and half-mile events when he meets Earl Kroch of the Illinois Athletic club and a member of Marquette's team, a sophomore and just 19 is one of the most promising distance men in the country, running the mile in 4:15. In three years of high school competition he did not lose a race and the same was true as a Marquette frosh. As a varsity man he finished first in the Marquette Wisconsin cross-country meet. Wisconsin later topped the Big Ten title. After a long siege of illness he ran second to Phelps, Iowa Olympic star, in the Big Ten meet. His crowning distinction was when he won first in the Illinois relay 1500 meter race from the greatest runners of the country western conference and eastern states included last week.

Olympic stars are well spread out in the different events. These include Joie Ray, Ray Watson, Ray DeJode, Stevenson, Harold Osborne and Fitch. Another star, miler entered in the meet is Earl Ellerson, former Milwaukee Normal and Ripon college star, now a freshman at Wisconsin.

LAWRENCE LEADS MIDWEST QUINTS BY SEVEN GAMES

Carleton and Hamline Meet in Final Little Eight Game Wednesday

Mount Vernon, Ia.—The Cornell victory of 35 to 25 over her ancient rivals, the Kohawks, Thursday evening, placed some of the finishing touches to the Midwest conference basketball standing for this case season. Beloit upset all dope Tuesday evening in her victory over the undefeated conference leader, Lawrence. With one Midwest game between Carleton and Hamline to be played March 11, there is still an opportunity for a shift in the conference lineup.

Knox had tough sledding on her Wisconsin trip last week end and lost to Lawrence and Ripon, only to come back in the last game of the jaunt against Beloit and set the Beloit team down with a 38 to 31 beating. Apparently determined to better their showing the Beloit quintet fought like demons against Lawrence in their last game and won 14 to 12 from the only team that had been able to hold a clean slate in the conference throughout the season up to that point.

Carleton fell short in both of her games in Iowa as Cornell toppled her with a 32 to 29 count and Coe with a 28 to 26 score. The lone tilt left to be played in the loop between Carleton and Hamline, appears to be a cinch for the Northfield team as the Pipers have lost every conference game but this year. The unlooked for may occur, however, and if Hamline does down her Minnesota rival, Carleton will be kept from her 500 per centage and fifth place in the final standing.

OSHKOSH BOY IS STAR AT MADISON

George Hotchkiss, former star center of the Oshkosh high school team and all state center in 1923, has been elected captain of the frosh basketball team at the state university. Hotchkiss has been a member of the varsity squad, which is coached personally by "Doc" Mearns, an honor that few freshmen achieve. As freshman he was not allowed to play in conference games. Few freshmen are ever taken from the frosh squad and placed on the varsity crew. Hotchkiss is looked to as one of the best bets to take Capt. Mike Diebold's place at guard on next season's quint.

Appleton fans will remember Hotchkiss for his great all-around playing in the Valley conference the last three years. He was shifted to guard with "Billy" Dew, Fondy's all state center of 1921, on this year's frosh five.

Veteran Pitcher, Over 50, With Dubuque

JOE MCGINNITY

Despite the fact that he has passed the 50-year mark, "Iron Man" Joe McGinnity recently announced that he plans to take his regular turn in the box this season for the Dubuque club of the Mississippi League, of which he is part owner. As will be recalled, McGinnity won his famous sobriquet some 25 years or so ago when he had a habit of hurling double-headers for the New York Giants.

SENATORS, GIANTS RENEW THEIR FEUD IN TRAINING CAMP

"Little World Series" Will Be Started in Southern Camps Tuesday

New York—Little Arlie Neuf looks like the choice of the New York Giants to pitch in the first clash with Washington in the "spring world series" on Tuesday at Palm beach. Frank Walker, Mickey Devine, Kent Greenfield and Joe Jange are among the recruits selected to make the first road tour of the year with the Giants. There are eight more training days as fifteen exhibition contests have been scheduled for this month.

At Clearwater the Brooklyn Dodgers are ready for the St. Louis Browns on Wednesday. Manager Robinson expects to use Eddie Brown in the right field and big Dick Cox in center with Capt. Zack Wheat in left. Cox is the sensation of the Brooklyn camp, having brought an advanced education in hitting and fielding from Portland of the Pacific Coast League. The Yankees will play the Braves Thursday, with either Jess Barnes or Rube Marquard opposing them.

HARRIS PICKS ZACH

Washington, D. C.—Tom Zachary, the reliable southpaw of the Senators who tamed the Giants in the last world series, looks like the choice of Manager Harris to start the opening battle at Palm Beach Fla., tomorrow of the exhibition series being the two clubs according to word from the champions training camp at Tampa. Harris was said to have had a hard time refusing the pleas of players not selected to make the trip.

The only other veteran pitchers to be taken along are Martina, Marberry and Russell, Johnson being left behind with his receiving partner, Ruel, which puts the catching burden on Tate and Jarragres, all of the regular infield and outfield are making the trip.

President Griffith smoothed out another uncertainty in his pitching force yesterday when he came to terms for a one-year contract with Veon Grog the veteran who was purchased after the close of last season from Seattle.

Brief Sketches Of Big Stars

CHARLES J. GRIMM
Chicago Cubs First Baseman
Born—St. Louis, Mo., Aug. 25, 1889
Major League Career—Joined St. Louis Cardinals in 1915, coming from the Durham club of the Carolina Association. Optional to Milwaukee, American Association, same season; transferred to Little Rock, Southern Association, and later released outright to Little Rock by Milwaukee. Sold to Pittsburgh in 1919. Reported sale price \$3,500. Traded to Cubs last fall along with Maranville and Cooper for Grantham, Neuhaus and Aldridge.

Outstanding Feats—Hit .345 in 1923. Led National League first basemen in fielding last season with average of .995. Remarkably consistent fielder, his mark varying only one percentage point for the past five seasons.

Kotal And Briese Are Given Places On Coach Denny's Little 5 Team

Lawrence Guards Rated as Best in Midwest—Ashman and Zussman Placed on Second Mythical Squad

FIRST TEAM
Vondrashek (Beloit), forward.
Starr (Carroll), forward.
Watson (Beloit), center.
Briese (Lawrence), guard.
Kotal (Lawrence), guard, captain.

SECOND TEAM
Zussman (Lawrence), forward.
Deppan (Beloit), forward.
Ashman (Lawrence), center.
Schultz (Carroll), guard, captain.
Ure (Ripon), guard.

Two Lawrence, Two Beloit and one Carroll player were selected by Coach A. C. Denny of the Lawrence college basketball team, Milwaukee and Wisconsin collegiate champions and holders of a tie for the Little Five title, for the all-state team of colleges in the Little Five conference.

Vondrashek of Beloit and Starr of Carroll were placed at the forward posts. Vondrashek made his position because of his phenomenal basket eye which earned the respect of all his opponents. Starr at the other forward is an experienced man, clever with the ball, an accurate passer and extremely fast. Zussman and Deppan are not far behind the first choice forwards as Zussman is a fighting fool and a wonderful man on the floor and the Beloit player is one of the speediest forwards in the state and an accurate shooter.

At center, there is little to choose between Watson and Ashman, but the Beloit pivot man has the edge because of his experience and clever work under the basket. He is also more steady than Ashman, who is inclined to be erratic at times.

Kotal and Briese are rated as the best pair of guards in the state and Midwest conference, and possibly in the middle west. They have kept opposing teams from the basket all season as evidenced by the low scores of Lawrence opponents, besides doing remarkable work on offense driving down the floor or dropping in long and short shots.

Schultz is rangy, shifty and an accurate shot from a guard position. Ure at Ripon was the mainspring of their offense and clever at guarding his opponent.

GREEN BAY BOWLERS LEAD IN K. C. MEET

By Associated Press
Racine—Northern Bowlers upset the standing in Knights of Columbus state tourney now under way on the Arcade alleys over the week end when the Jack-Getters of Green Bay went into first place on a high count of 2836 and the Caseys, also of the Bay, went into second place with 2722. E. Jeffers and J. Schaefer of Malsuf going into second place in the doubles with B. Masse and M. Malsuf going into second place in this division with a 1193 total.

Fred Hegeman of Racine, aviated into the lead in the singles with a high count of 663, nosing out H. Eulogh of Waukegan by 10 pins. Teams from Beaver Dam, Green Bay and Racine occupied the drives.

While most of the "Knaysess" will roll in the meet on Saturdays and Sundays, several teams are scheduled during the first days of the present week. The K. of C. No. 12 outfit of Manitowish rolls Monday with singles and doubles on Tuesday and the M's quettes No. 2 of Milwaukee roll on Thursday.

PITCHERS BIG WORRY OF ST. LOUIS CLUBS

St. Louis, Mo.—After a week's review Manager George Sisler says he feels certain that the St. Louis Browns will get better pitching both starting and relief in 1925 than they got in 1924, when a little better twirling might have kept the club in the race to the close of the season.

Lacking the Sisler stamp of official approval reports from the Browns' camp at Tarpon Springs, Fla., indicate the following hurlers will be in the staff this summer.

Bush, Van Gilder, Wingard, Davis, Blakholder, Gaston, Glard, Grant, Flake and one from the ranks of the recruits. Dave Danforth also is a strong possibility if he signs a contract. League Career—Joined St. Louis Cardinals in 1915, coming from the Durham club of the Carolina Association. Optional to Milwaukee, American Association, same season; transferred to Little Rock, Southern Association, and later released outright to Little Rock by Milwaukee. Sold to Pittsburgh in 1919. Reported sale price \$3,500. Traded to Cubs last fall along with Maranville and Cooper for Grantham, Neuhaus and Aldridge.

LOCAL MEN OFFICIATE AT TWO DISTRICT CAGE MEETS

Appleton will be represented by referees at two of the district high school tournaments of the state this year. A. C. Denny, director of athletics at Lawrence college and coach of the 1925 Midwest and Little Five champs, will officiate at Marinette and Warren. Wrist of the Appleton high school faculty will blow the whistle at Oshkosh.

San Francisco, Calif.—Louis (Kid) Kaplan, featherweight champion will meet Edouard Mascart, French featherweight, in a boxing contest in Yankee Stadium New York some time in June, Kaplan's manager announced.

CROWLEY RETURNS TO NOTRE DAME

Green Bay — Jimmy Crowley, the Green Bay member of Knute Rockne's famous four horsemen at Notre Dame has sufficiently recovered from his illness to return to school and he left here Sunday for South Bend. Crowley's condition is much improved, doctors say, but it will probably be several months before he engages in any athletic activities. The football star has spent the last two weeks out in the open in the woods of Door county and came back here looking like a different athlete.

It is understood that Crowley will return to Notre Dame next fall and complete his course. His long illness has made it impossible for him to graduate in June. Crowley will not be eligible for football, having played three years.

MOLLA MALLORY WINS GOLD CUP IN TENNIS TOURNEY

Palm Beach—Mrs. Molla B. Mallory former national woman's tennis champion, won permanent possession of the Flagler trophy today with her third victory in the annual women's Florida tennis championship tournament, defeating Mrs. Bernard F. Stenz of New York in straight sets in the final, 6-4, 7-5.

The gold cup which Mrs. Mallory won was placed in competition by the late Mrs. Henry M. Flagler in 1919.

Omaha, Neb.—Corinne Condon, 14, broke the midwestern-A. A. U. record for the 100 yards free style swim, negotiating the distance in one minute eight and one fifth seconds.

GILLETTES WIN FIRST PRIZE IN BOWLING TOURNEY

Elks Give Out Prizes at Banquet at Close of Successful Season

Elks who competed in the bowling tournament which closed last Friday night will receive their prizes at the banquet Monday night to mark the end of the season. First prize in the team events goes to the Gillette team which won 42 game and lost 24 for a percentage of .636. Firestones, in second place, narrowly missed the title winning 41 and losing 25 for a percentage of .621. The final game on Friday night determined the championship.

This is how the teams finished:

	W	L	Pct.
Gillette	42	24	.636
Firestone	41	25	.621
Goodrich	39	27	.591
Goodyear	39	27	.591
Mechelen	35	31	.530
General	35	31	.530
Diamond	34	32	.515

Hood	27	39	.409
Kelly	25	41	.379
Miller	24	42	.362
Ajax	22	44	.333

A splendid, informal program has been arranged for the banquet. There will be short talks on bowling by the team captains and there will be cabaret entertainment.

Dr. W. E. O'Keefe established a new high mark for the season's bowling on Saturday when he rolled a score of 279. The previous high mark had been set by W. Jacobson and F. Fries. O'Keefe smashed the pins for an average of 209 in 15 games, one of the best performances on the Elk alleys.

MAN CRITICALLY HURT WHEN AUTO BUMPS CULVERT

John Kaufman Is in Serious Condition at Hospital— Companion Slightly Hurt

John Kaufman, 47, living at 611 N. Superior-st., is in a critical condition at St. Elizabeth hospital suffering from injuries caused by an automobile accident about 6 o'clock Sunday evening on Hortonville rd near Greenville when a Ford coupe he was driving crashed into a culvert wall and overturned. The car was owned by August Jahnke nurse and was occupied also by Richard Riedl, 45, of Hortonville, who was hurt slightly. Mr. Kaufman's scalp was cut badly from contact with a fence and the surgeon found it necessary to take 25 stitches to close the wounds. He also suffered a rupture and severe internal injuries. The outcome of his injuries could not be determined Monday. Mr. Riedl suffered lacerations on one leg and other cuts and bruises. He also was taken to the hospital but left after his wounds were dressed. The men were proceeding toward Appleton from Hortonville and Mr. Kaufman lost control when they were at a point half a mile west of Greenville. The machine crashed into the culvert abutment at the left side of the highway, then leaped to the right side of the road and turned over in the ditch. The car was practically demolished. Ervin Julius, a farmer living at Greenville, assisted the men out of the wreckage and conveyed them to the hospital.

BOOST STATE ELK TOURNEY AT DINNER

Wausau Entries Will Be Discussed at Annual Elk Bowler's Banquet Tonight

Enthusiasm for the state elk bowling tournament at Wausau beginning this week will be stimulated at the annual banquet of Elk bowlers Monday evening at Elk clubhouse. Reservations numbering approximately 250 have been received for the dinner. Plans for a local windup match series also will be discussed. Appleton's dates at the Wausau tournament are March 29 and 30 and the lodge will endeavor to send a large number of teams. A new \$200.00 clubhouse has just been opened there, at which the games will be rolled. It is the plan of the local lodge to divide its 12 teams into two squads for a spring series of matches. The six teams will roll each other and the winner in the two squads then will roll for a club prize. The program of the banquet will include the awarding of prizes for the season's tournament, community singing and other entertainment.

Happiness Must Be Earned

What Do You Mean?

when you say you don't quote comparative prices in your advertisements?" a friend asked us not long ago.

"We mean," we explained, "that we don't use such expressions as '50 cent values for 39 cents,' or 'blouses that formerly sold for \$8.50 now \$5.95', or other statements of a similar nature.

"Why don't you?" she asked.

"Because we want you and the rest of our customers to have absolute confidence in our advertising and to know that it is our aim to tell the truth always and not be misleading,—we try to understand rather than overstate," we replied.

"But those expressions don't seem untruthful to me—I read them so often!" she insisted.

"According to our mind," we stated, "the value of an article is what it will bring. If the article will bring only 39 cents, that's its value, and not 50 cents. As for the other expression, we try to sell goods only once, so the statement about the blouses should read 'blouses that didn't sell for \$8.50 now \$5.95.'"

Our friend laughed. "You're right. I'll read your advertisements more carefully from now on, and with greater confidence—but look out if they mislead me!"

"You needn't worry—they won't!" we assured her.

FROCKS THAT TELL OF SPRING

THE imprint of a new season is on all the charming new frocks here. Lovely lightsome fabrics, colorful garniture, a new grace and swinging ease in line give definite word that Fashion has cast off her somber winter garb to wear the gayer modes of spring.

Exquisite frocks of chiffon with embroideries or insets of dainty lace are here to choose for afternoon or evening. Sports frocks of soft flannel bright with color, daytime frocks of kasha and twills present fascinating choice. And the moderate prices here make it possible to assemble a complete outfit within a very moderate expenditure.
